

Import-replacement opportunities

There are certain things that everyone needs: food, clothing, shelter, energy, and transportation. If we can meet these needs locally, instead of importing the goods or services required to meet our needs, we can create high-quality local jobs, decrease our use of fossil fuels, increase local resilience, and build the local tax base.

Brainstorm some ideas for import-replacement businesses or products that fit into each category. Feel free to discuss with friends and family to come up with as many ideas as possible.
